PHI ACQUIRES HEALTH ETOOLS FOR SCHOOLS® AND STUDENT HEALTH FORCE®

Lancaster, PA – On May 22, 2015, Population Health Innovations, LLC, PHI, acquired the assets, Health eTools for Schools and Student Health Force, from InnerLink, Inc. As part of the arrangement, PHI is reengineering Health eTools for Schools for the Pennsylvania clients. Later this year, Health eTools for Schools will be offered to the nation.

###

About Population Health Innovations, LLC

Populations Health Innovations, LLC, is headquartered in Lancaster PA, It was started in December 2013 to address the rapidly changing landscape in health care and fill an immediate need to innovate and disseminate high quality technology and validated and engaging content for use in solutions that advance the health of the community.

The content delivery and programs from InnerLink, Inc, were acquired or licensed to launch the company. Since launching, world class media and applications have been acquired or licensed to create the “Reality Health Engine Platform” to deliver custom or consumer solutions to address health maintenance and health care needs.
