

eWalk HEALTH

eWalk HEALTH is a flexible, mobile system that expands the eWalk walkthrough process to include health data and video capture with collection from a wider audience (school professionals and parents) for a truly unique report offering of data aggregated for evaluation and analysis by health professionals.

eWalk HEALTH is designed to gather, manage, and evaluate health data, it powers solutions for school and home observations.

eWalk HEALTH allows participants to track health-related issues such as ADHD, inhaler use, etc.

The screenshot shows a mobile application interface for a NICHQ Vanderbilt Assessment Scale - Teacher Informant. The form is displayed on a tablet screen. The top section contains metadata fields: Walk-through Name (NICHQ Vanderbilt Assessment Scale - Teacher Informant), Template (Vanderbilt - Teacher Informant), Board Name, School Name, Sample Board, Sample Schools, Observer (Michael K. Curley), Subject (Julie Appleton), Start Date/Time (Mon Apr 28 2014 07:27 AM), and End Date/Time. Below this is a section for Page 1, which includes fields for Teacher's Name (Mary Smith), Class Time (9:30 AM), Class Name/Period (Language Arts - 3rd), Today's Date (4/29/2014), Child's Name (Ricky Jones), and Grade Level (3rd). A rating scale is provided for each item, ranging from 1 (Never) to 4 (Very Often). The form also includes a section for symptoms and a note about the rating scale's context.

eWalk HEALTH - Features with Unlimited Possibilities

Templates and Protocols: Users can build their own templates but the Vanderbilt ADHD Diagnostic Rating Scale and other protocols are included.

iCoach App: Record video with the easy to use iCoach Mobile app to merge classroom observations with home observations and provide medical professionals with quality data for analysis and evaluation. Video with a smartphone or iPad. Invite feedback through the secure, cloud-based system where every comment is linked directly to the video timeline. Track and aggregate all feedback received or attached in an eWalk template for feedback, including rubrics, frameworks, protocols, etc.

Surveys and Polls: Survey staff, parents, and other invested parties for inputs and ideas. Instantly publish eWalk templates as a web-based survey optimized for mobile and desktop browsers. Includes QR codes and short URLs for easy distribution.

Share Feature: Allows users to build custom templates and evaluations that can be shared with other school districts.
