

eWalkPLUS®

eWalkPLUS is a flexible, mobile system that adds full staff evaluations, mobile surveys, and polls to eWalk®

eWalk PLUS expands the eWalk walkthrough process with formal performance appraisals, self-assessments, learning plans, portfolios, improvement plans, and supports data collection from a wider audience.

eWalkPLUS is a unified system for classroom walkthroughs, staff evaluations, and survey needs. Designed to gather, manage, and evaluate staff performance data, it powers solutions for classroom observations and provides rich resources to promote classroom effectiveness.

eWalkPLUS - Features with Unlimited Possibilities

Evaluations: Integrate teacher and principal evaluation systems with complete flexibility.

Professional Development: Connect to appropriate professional development resources for Educational Impact and other leading vendors with hundreds of videos, online courses and PLC opportunities.

Support state-mandated frameworks: Provides forms optimized for iPad/iPhone, Android, Windows, and BlackBerry 10 offline use.

iCoach App: Encourages peering mentoring and coaching through teacher-created videos. Use iCoach to capture classroom video with a smartphone or iPad. Invite feedback through the secure, cloud-based system where every comment is linked directly to the video timeline. Track and aggregate all feedback received or attach an eWalk template for feedback, including rubrics, teacher frameworks, etc.

Surveys and Polls: Survey staff, parents, and students for inputs and ideas. Instantly publish eWalk templates as a web-based survey optimized for mobile and desktop browsers. Includes QR codes and short URLs for easy distribution.
